BOARD OF TRUSTEES
POLICY ON SETTLEMENT OF CLAIMS AND LITIGATION

SECTION 1. BACKGROUND

The Bylaws of the Board of Trustees authorize the President, Chief Financial Officer, Treasurer, and Secretary to execute legal instruments binding on the University, which include settlement agreements resolving legal claims and litigation against the University and University officials. Prior to adoption of this policy, there was no requirement for Board involvement in the settlement of claims and litigation. The typical practice was for the Chief Financial Officer to approve settlements after other approvals appropriate to the particular matter had been obtained, including approval by the chief executive officer of the campus or institute (or designee).

SECTION 2. PURPOSE

This policy establishes specific requirements for approval and oversight of the settlement of claims and litigation, including approval of settlements above a certain amount by either the Executive Committee or the Audit and Compliance Committee of the Board of Trustees, and reserves certain approval authority in the Board itself.

SECTION 3. APPLICATION

This policy applies to claims and litigation against (a) The University of Tennessee (including any component unit of the University), or the Board of Trustees, as a corporate body; (b) Trustees and University employees sued in their official capacities; and (c) Trustees and University employees sued in their individual capacities when representation has been authorized by the Attorney General and Reporter pursuant to Tennessee Code Annotated § 8-42-103.

The chief executive officer’s recommendation shall identify the source of funding for the settlement.

(b) When the chief executive officer of the system administration (the President) has decided that settlement of a claim or litigation arising out of the system administration is in the University’s best interest, the chief executive officer’s approval of the settlement, and any other system administration approvals the chief executive officer may have obtained, shall be documented in a written recommendation submitted to the system Chief Financial Officer as the initial approving authority under Section 6 of this policy (in which case further approval by the President under Section 6 of this policy is not required
