**Introduction and Purpose**

The Academic Programs in the College of health Professions (COHP) award letter grades based on numerical values as well as grades of pass/fail. The grading scale for each program is recorded in the UTHSC Academic Bulletin and provided on the course syllabus. The UTHSC Bulletin outlines the student performance criteria for each program and the academic progress and promotions committee process. In the COHP, the program faculty are responsible for determining the grading scale. It is the responsibility of the instructor of a course to describe the method of evaluation of each course. Grades are not considered final until reported to the Banner system.
