

Knoxville Campus Policy: OP00009-K Electrical Problems, New Installations, and Wiring Changes	
Version 1	Effective Date: 06/12/2018

Facilities Services

Electrical Problems, New Installations, & Wiring Changes

The Facilities Services Department must make, approve, or supervise any changes to the electrical wiring within buildings. This includes installation of wiring for security systems and wiring for data/voice/video transmission. To obtain service, call the Work Order Office, 974-2347. New installations/changes and general problems with electrical service should be discussed with Electrical Services (132 Facilities Services Building, 974-2505).
